

A Reading List about Mutual Holding Companies

This list contains favorable and unfavorable views about mutual holding companies, as well as some articles about demutualization and business strategies. Several items that provide a good starting point for mutual company policyholders to learn about this subject are in boldface. There is also a separate section on executive compensation and performance.

Executive compensation and performance

Some critics believe that mutual company executives are pushing for mutual holding companies because they want higher pay for themselves, without the higher level of accountability that executives face at publicly-owned companies. Here's a reading list with different views about executive compensation and performance and the oversight provided by directors.
